Goal: Analyzed Instacart customer data to identify segments and develop targeted marketing strategies.
- **Rockbuster Stealth BI Data Analysis**
Goal: Provided data-driven insights through PostgreSQL analysis and Tableau visualizations, informing business decisions.

WORK EXPERIENCE

Client Finance Analyst   2018-2022

SIRVA Worldwide Relocation & Moving, Prague, Czech Republic

- Produced daily Excel reports for management, furnishing detailed insights into the status of invoices and employee expenses to facilitate strategic data-driven decision-making.
- Conducted thorough audits of expenses and invoices to ensure compliance with relocation policies and clients' contractual agreements.
- Ensured accurate coding of all payments, considering both classification and tax implications, to maintain financial transparency and compliance.

Retail Loan Analyst, Domestic and Foreign Payments Officer, Cashier

Sparkasse Bank Macedonia, Skopje, N. Macedonia   2008-2017

- ·Executed thorough credit analysis, leveraging Excel and internal tools to gather and analyze client's data from multiple sources. Reverse engineered complex challenges to simplify the solutions necessary for satisfactory results, breaking down intricate details into easy and simple-to-implement solutions. This approach resulted in informed, data-driven credit decisions that balanced client financial service demands with creditworthiness, ensuring a responsible and optimized portfolio for the bank.
- Improved loan and credit card application processing efficiency through expertise in bank processes and credit analysis, supported by official certification for approvals up to 20,000 EUR. Enabled swift handling of smaller amount applications, maintaining the high quality of the bank's portfolio.
- Demonstrated ethical decision-making in handling sensitive financial information.
